FOREWORD

Dearest colleagues,

After one decade JAKNEWS had delivered one of the highest quality scientific sessions, interactive discussion, and courses. Now, we will welcome the 11th year of JAKNEWS, preparing us to enhance our knowledge and skill in neurology. Indonesia as a country will conduct a fast array of transformation especially in its healthcare system, prioritizing on primary healthcare, referral system, health sovereignty, billing system, healthcare provider, and medical technology. As neurologists we will not only take part, but also play a pivotal role on this matter.

JAKNEWS 11, Elevating and Empowering Neurology (ELEVEN) will be a place for us to discuss the most recent updates in Neurology including steps we can take to provide benefits to the patients and society.

JAKNEWS 11 will have lectures and courses led by a panel of renowned international and national experts and an offline symposium that will be held from February – March 2023.

On behalf of Jakarta's branch of the Indonesian Society of Neurologists (PERDOSNI JAYA) and the Department of Neurology Faculty of Medicine Universitas Indonesia, we are pleased to invite you to come and join us in the 11th JAKNEWS on March 2024. See you in Jakarta!

Warmest regards,
